SQUARE DIMENSIONS	55 mm
SIZE	BIG

Product description

SMART technology has been developed specifically to make the product more affordable than DGT wooden chessboards, to make live broadcasts of chess matches more accessible and reach a wider audience. The kit includes:

The kit includes:

DGT SMART BOARD electronic chess board with description

A set of DGT plastic electronic pieces

Cabling kit for individual use and Fritz 14

The Smart Boards are made of high quality plastic providing the same functionality and experience as the wooden electronic boards.

Smart Boards can be used in many different ways at home, club or tournament.

Online play

Play online against opponents from all over the world using the Smart Board as an input device, for example on Playchess.com. Your opponents moves (human or motor) are shown on the display of the DGT3000 chess clock connected to the board.

Recording chess games

Use the Smart Board to record your games for later download and analysis.

Gaming, training, analysis and learning

Smart Board works with the most powerful chess software and chess programs available for desktop or laptop computers. Order a **DGT Pi**, chess computer to turn the Smart Board into your strongest sparring partner. Automatically store games played for publication or analysis.

Tournament Configuration

DGT Smart Boards are fully compatible for use with DGT wooden boards in a tournament configuration.

Live Broadcasts over the Internet

Use the new, free LiveChess software that includes a free cloud service to broadcast your games and tournaments live via your website.

To use the Smart Board in a tournament configuration, you will need to order a set of cables for the first board and in addition the appropriate number of cables for the next 11 boards.

The Smart Board chess board is compatible with all DGT electronic figure sets, both wooden and plastic. The board size is 52 x 52 cm and the field size is 55 x 55 mm.

Wiring for the first tournament board can be found [here](#).

Wiring for connecting one of the next 11 boards in the tournament system can be found [here](#).

Sunrise Chess & Games is the largest distributor of DGT products in this part of Europe. We provide warranty service on all DGT products.
