Manufacturer	<b>DGT</b>

### Product description

**PAY ATTENTION: Only the board, no pieces are included!**

Tournament e-Boards are used at Chess Olympiads, World Chess Championships and all major chess tournaments around the world to show the games live as they happen. Also many smaller tournaments use the boards to show games live on their tournament website.

Showing live games attracts more visitors to your website and makes it easier to find sponsors.

Free DGT LiveChess software is used to manage the e-Boards and arrange the live transmission of games in real time via the internet or on screens at the playing venue.

The boards can be combined with one of the following type e-Board pieces: Royal, Classic, Timeless, Venus, Ebony or FIDE. And last but not least you can also have a DGT3000 clock with the board.

**Serial Tournament e-Boards are standard supplied in a custom made e-Board storage bag.**
