### Product description

The most important feature of the Blackmore chess pieces is their slenderness contrasting to their wide bases. These chessmen are unmatched among other Staunton models. Thanks to such a design they are among the most solid chess pieces. They remain unimpressed and stay firmly on their place even when hit by an accidental push during a vivid game. One should not forget the double base of each chessman which distinguishes them between all other Staunton models.

All pieces are made of boxwood.

HEIGHT OF KING: 4" = 10,1cm
