DGT 1005 Byo-Yomi Timer

Price	33.00 €
Item code	CHCA45
EAN	8717662821523

Product description

The high quality DGT1005 Byo-yomi timer is a clock programmed with Japanese Byo-yomi timing options and especially designed for the ancient games Shogi and Go.

Shogi and Go players love the DGT1005 Byo-yomi game timer because it has a beautiful design, it is very affordable and it is easy to set and to use.

Simply set the game time, set the Byo-yomi period time and the number of Byo-yomi periods (from 0 up to 9) and start the clock. It has a clear display which makes it easy to check your time in the blink of an eye with has a clear indication which player's clock is running.

The game timer has a fitting design in the traditional black and white colors of Go stones. The DGT1005 Byo-yomi timer fits nicely alongside any Go board due to its small footprint and it is very compact so you can easily take it with you.

It is perfect for games at tournaments, the club or your casual Shogi or Go game at home. Without the hassle of needing to go through complicated menus, you will be set and ready for another game in no time. The DGT1005 Byo-yomi uses beeping sounds to indicate the intervals, with a long beep towards the end of the period in similar fashion of the calling out of seconds in traditional Go timing.

It operates on one AA battery (included) and comes with a 2 year warranty.
