Product description

The set of the Project "**Education through Chess at School**" is characterised by high quality products and a very attractive price. As we have been a supplier of chess sets to the Project organised by the Polish Chess Federation for several years now, the components in the set do not differ (apart from the weight of the chess pieces) from those received by schools participating in the Project. The set consists of **15 sets of weighted plastic chess pieces, 15 yellow/brown half-folding chessboards** and **1 demonstration chessboard**.
