Product description

Beautiful set of Stallion chess pieces is characterised by its English style. It is almost impossible to find such a good set in such an affordable price as we offer in our store.

Stallion Ebonised set has beautiful details (e.g.: intricately carved king's crown and queen's head). "English stallion" - the knight's piece, has a proudly raised head and bared teeth, ready to defend his king at all cost. Other chess pieces are also very beautiful, perfectly balanced with a smooth, polished surface.

The black part of this set is made of ebonised hardwood that give them the appearance of ebony and eliminates many problems that affect ebony pieces. White pieces are made of boxwood.

Stallion chess pieces set is equipped with two additional queens pieces.
