Product description

Staunton No. 5 wooden chess pieces offered as a set together with an aesthetically pleasing wooden chest for storing the pieces.

The interior of the chest has separate two compartments - for white and black pieces.

The Staunton No. 5 King pieces with a height of 90 mm are perfectly suited to chess board No. 4+ D45 MAH NOTATION and No. 5 D50 MAH NOTATION. They are made from schima wood used, among other things, in the manufacture of wooden toys, children's chews and other wooden items and stained to give them a slightly rustic finish. The pieces are carefully finished, weighted and felt-lined on the underside, making them comfortable to hold in the hand and move around the chessboard. The chest in the standard version is stained (mahogany colour). On request, it can also be offered in a light colour, i.e. in natural wood.

The board shown in the pictures is not part of the set and can be purchased separately in our shop.
